## K21 - PISTON ROD SEAL

OTHER PRODUCTS

K21 is a single acting symmetrical u-cup that can be produced from polyurethane or elastomer material and can be used in the piston or rod applications. It is recommended for use in light duty cylinders.

### Advantages

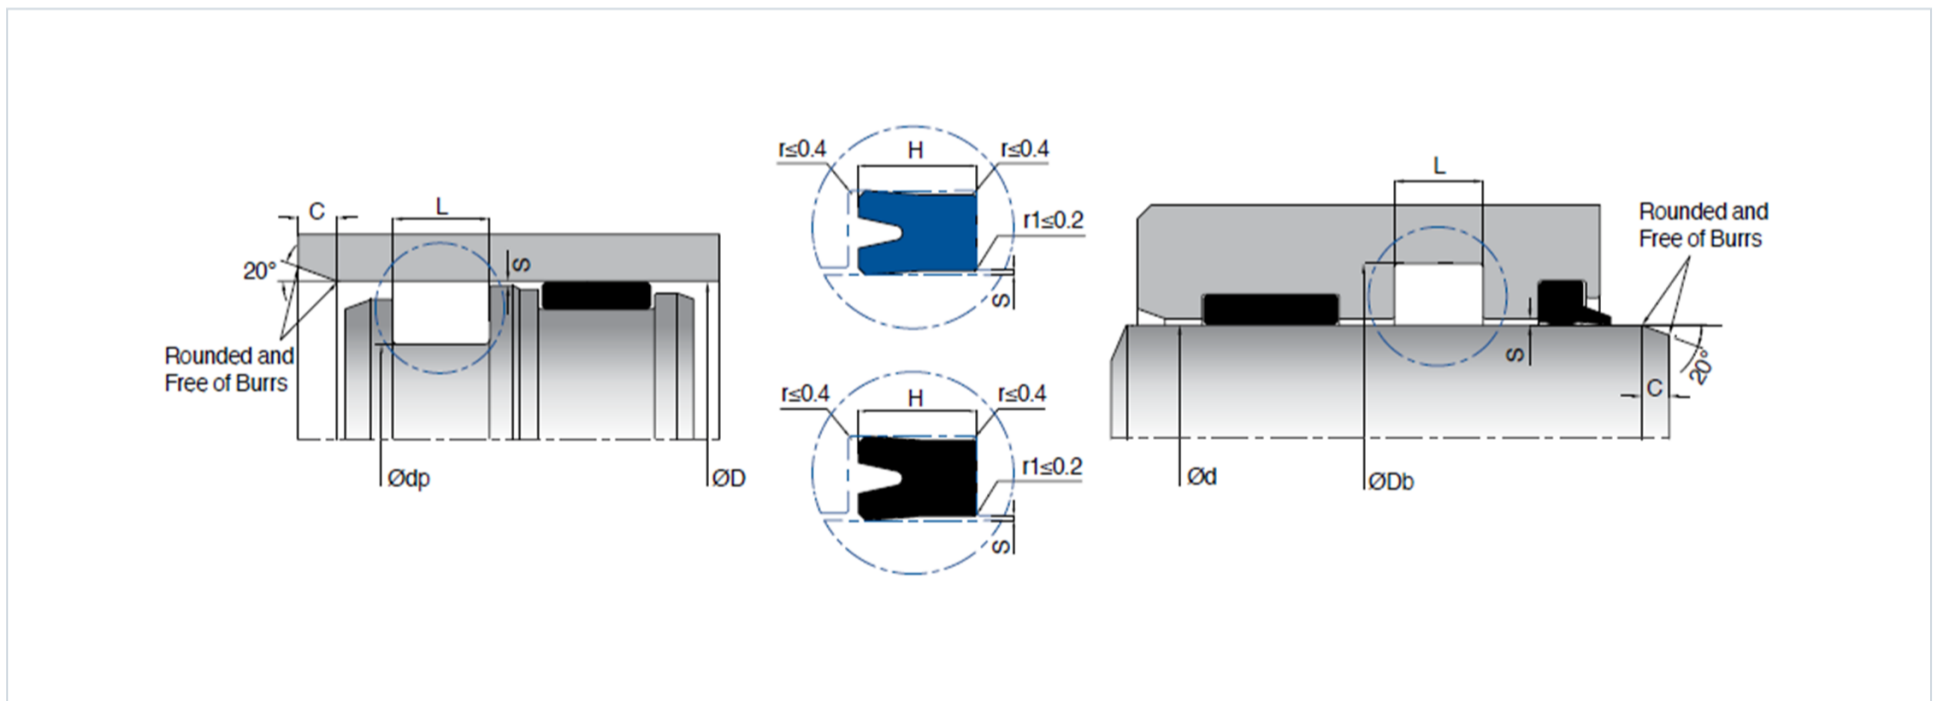

- Wide range of dimensions
- Economical sealing solution
- Good dynamic and static sealing
- Good locking feature

### Area of Application

- Standard industrial cylinders
- Agricultural cylinders

seal-Link
